Giovanni Mattei

SOFTWARE DEVELOPER

PERSONAL DATA

Birthday   05/12/2002
Nationality   Italian

PERSONAL PROFILE

Motivated Software Developer with a passion for coding and problem-solving. Currently studying programming at 42 Firenze where I am gaining skills in C/C++, Linux and more. Seeking a junior developer role to apply my education and eagerness to learn. While still early in my career, I am a quick learner committed to continuously improving.

EDUCATIONAL HISTORY

42 Firenze
Oct 2022 - present

- Version control best practices using Git for solo and collaborative projects
- Teamwork and collaboration on group projects utilizing agile methodologies.
- Project planning including scoping, specifications, and documentation.
- Conducting thorough research to gather requirements and identify solutions.
- Implementing testing and debugging strategies for quality assurance.

SELF-STUDY

In addition to my studies, I am trying to continuously expand my skills through self-study and extracurricular projects. I enjoy experimenting and testing.
In particular I'm creating website, games and trying to contribute to open-source projects.

OTHER INTEREST

Sci-Fi & Fantasy
Games
Novels
